INNOVATION, EFFICIENCY & UNGER PROFESSIONAL QUALITY

FOR REAL PROFESSIONALS

UNGER is driven to continually develop new products that offer real value to cleaning professionals. All our products are customer-oriented and have been tested and approved by customers before launching to market. Every **UNGER** product is designed with end user safety, comfort and efficiency in mind.

With cleaning contractors in more than 80 countries around the world putting trust in **UNGER** quality, our company has gained international reputation as a leading manufacturer of professional cleaning and maintenance tools.

UNGER BRAND STANDS FOR

- INNOVATION
- QUALITY
- SERVICE

EVOLUTIONARY WATER FED POLE TECHNOLOGY FOR PROFESSIONALS!

The highest professional cleaning standards are even easier to achieve with the multi-talented **nLite**® Water Fed Pole System. Suitable for cleaning of glass and building facades, stainless steel, solar panels, signage and vehicles, the innovative **nLite**® Water Fed Pole System utilises both telescopic and modular concepts for comfortable use and allows you to clean at heights of up to 20 m (65 ft) safely from the ground.

 p. 10

THE MOST EFFICIENT DI PURE WATER SYSTEM EVER!

Inspired by our customers and packed with the latest patented design innovations, **HydroPower DI Filters** offer a wealth of benefits for professional window cleaners (and everyone who cleans with pure water).

p. 22

STINGRAY – THE MOST EFFICIENT INDOOR CLEANING TOOL EVER

Discover **Stingray** – a safe and simple way to clean indoor surfaces! A revolutionary, ready-to-run solution to your indoor window cleaning needs, **UNGER Stingray** cleans windows up to 25 % faster and uses up to 39 % less chemical than conventional sprayer and cloth method.

p. 60

THE PREMIUM IN TRADITIONAL WINDOW CLEANING

ErgoTec[®] NINJA is our premium range of sophisticated tools. Every product within **ErgoTec[®] NINJA** family is loaded with features to help you achieve outstanding results with minimum effort; high quality materials for each component have been carefully selected to ensure the best performance.

p. 36

GREATER RESULTS – WITH LESS EFFORT!

For some time Squeegee users all around the world have been 'Dog Earring' their channels to improve performance and reduce detailing. We have decided to make this feature available to everyone by launching the new S-Channel Plus with curved ends.

WINDOW CLEANING

Quality Tools for Smart Cleaning

Professional Window Cleaning

Delivering expert solutions and high quality service for over 50 years

The World's Number 1 brand in professional window cleaning, **UNGER** have been delivering innovative solutions for expert cleaning and maintenance since 1964. Over the years we have celebrated many major milestones a lot of them you will find in this catalogue.

Today our range includes a wide choice of best-selling traditional window cleaning tools and multi-award winning Pure Water Cleaning Systems, designed for safe and efficient cleaning of external glass, building facades, solar panel, signage and more at heights of up to 20 m (65 ft).

UNGER'S latest innovation – the **Stingray** Indoor Cleaning System allows you to clean indoor windows and other surfaces up to 25 % faster, using 39 % less chemicals. Powered by 3M Scotchgard, the **Stingray** allows you to reach heights of up to 4m (13 ft) safely from the ground, creating lasting protection against dust, fingerprints and fogging with every clean.

With all **UNGER** products covered by 100 % Customer Satisfaction Guarantee, cleaning contractors in more than 80 countries around the world trust in **UNGER** quality.

WINDOW CLEANING

PURE WATER CLEANING SYSTEM

Applied with water fed pole system such as **nLite®**, **PURE WATER** water is the most efficient way of cleaning at heights of up to 20 m (65 ft) safely from the ground. What's more, it requires no chemicals or drying the glass – saving time and money!

TYPICAL APPLICATIONS: Residential or commercial window cleaning, large areas of glass, building facades, vehicles, signs and solar panels.

TRADITIONAL WINDOW CLEANING

Traditional handheld tools, designed to meet the demands of the professional window cleaning industry (see page 34).

TYPICAL APPLICATIONS: Suitable for cleaning most types of outdoor and indoor glass and windows.

INDOOR WINDOW CLEANING

Innovative and effective tools, designed to meet the demands of general cleaners for quick and efficient indoor window cleaning (see page 60).

TYPICAL APPLICATIONS: Suitable for cleaning indoor glass, windows, mirrors and many other types of surfaces. Perfect for hard to reach areas and safe cleaning of surfaces at heights of up to 10 m (33 ft).

PURE WATER SYSTEM

Cleaning with Pure Water

WHAT IS PURE WATER ?

It's water in its purest form, physically processed to remove the minerals that would otherwise lead to limescale spots and streaks.

Such impurities are referred to as **TDS** (total dissolved solids) and are measured in **ppm** (parts per million).

The water is considered 100 % demineralised (pure) when TDS is 0 ppm.

ADVANTAGES

SAFETY

- **UNGER** Pole Systems allow to clean at heights of up to 20 m safely from the ground
- No need to use dangerous ladders or hire expensive equipment

LABOUR EFFICIENCY

- One step cleaning – no need to dry windows
- Large areas can be cleaned faster than using traditional methods

ECONOMIC BENEFITS

- Improved safety helps to reduce insurance cost
- Greater efficiency means more work can be done in the same time
- No need to use expensive chemicals – good for environment, operator and client!

WHY USE PURE WATER FOR CLEANING?

Because it's pure it offers superior cleaning power and results without the need for chemicals, leaving glass and surfaces spot and streak free - saving time, effort and money.

Applied with a water fed pole system, such as **UNGER nLite®**, pure water is a fast, safe and effective method of cleaning, especially at height.

TYPICAL APPLICATIONS

WINDOW AND FACADE CLEANING:

- Fast and effective method – great results!
- Easy access to hard to reach areas

PV- AND SOLAR PANEL CLEANING:

- Regular cleaning prevents build up of dirt for greater energy output
- Solar yield can be increased significantly!
- Cleaning with 100 % pure water leaves no streaks or detergent residue

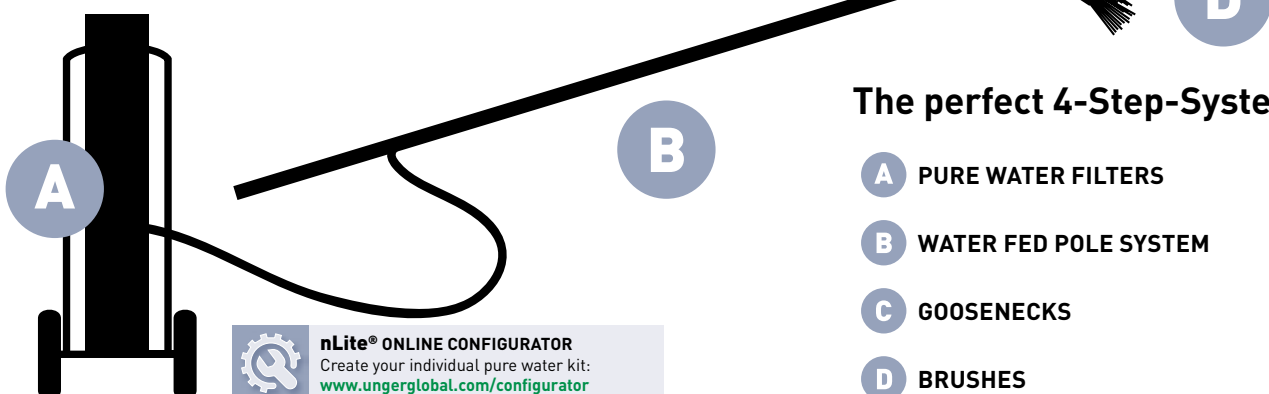

KLAUS-VIDEO

Cleaning with Pure Water

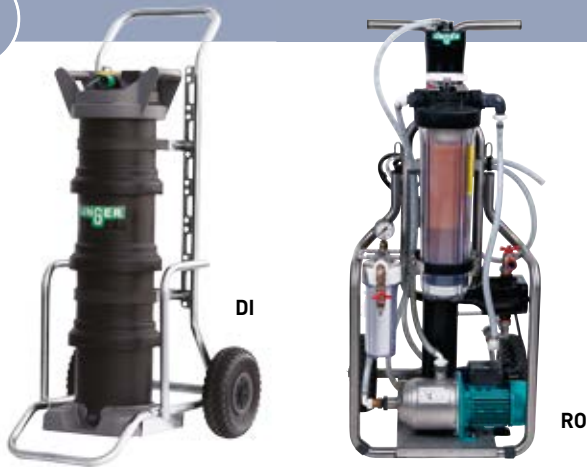

www.ungerglobal.com/video

PURE WATER CLEANING - KEY COMPONENTS

nLite® is a modular system. The individual components can be selected and put together to create a unique system to suit personal requirements.

A

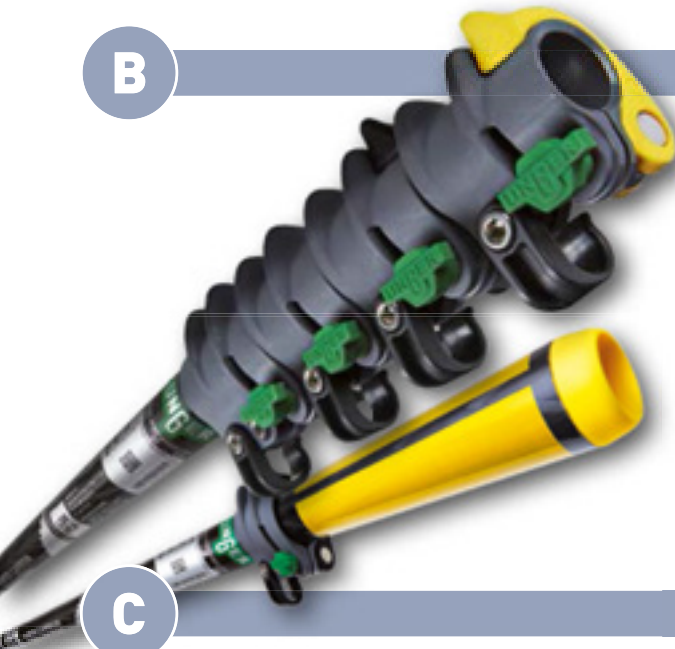

PURE WATER FILTERS

There are 2 recognised methods of pure water production in the window cleaning industry - Reverse Osmosis and Deionisation.

The **UNGER** range includes filters utilising either of these methods - turn to page 21 for more information.

p. 21

B

WATER FED POLE SYSTEMS

Light, modular and easy to use. Our **nLite**® System sets a new benchmark in professional cleaning technology.

Suitable for cleaning of glass and building facades, stainless steel, solar panels, signage and vehicles, the innovative system includes everything you need to clean at heights of up to 20 m (65 ft) high safely from the ground.

p. 10

C

GOOSENECKS (ANGLE ADAPTERS)

Strong and light carbon fibre goosenecks allow the **nLite**® Brush to be screwed directly on to the gooseneck and then quickly fitted to the water fed pole to achieve any working angle.

p. 16

D

BRUSHES

Superlight Brushes feature high quality polyester or natural bristles designed to get into the smallest corner and help with scrubbing actions. With up to 12 different Jet locations and choice of sizes, there is a perfect Brush to help you overcome any cleaning challenge.

Evolutionary Water Fed Pole Technology for professionals

Unveiled in 2012 at ISSA/INTERCLEAN Amsterdam, the **nLite® Water Fed Pole System** has immediately set a new benchmark in pure water cleaning technology.

Since then the **nLite®** range has won several prestigious Innovation Awards and become a go-to solution for professional window cleaners worldwide thanks to its ergonomic design, ease of use and perfect balance between weight and rigidity.

Suitable for cleaning of glass and building facades, stainless steel, solar panels, signage and vehicles, the nLite® Water Fed Pole system includes everything you need to clean at heights of up to 20 m (65 ft) high safely from the ground.

2 different designs

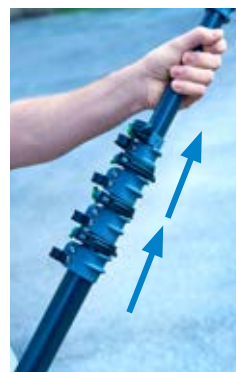

There is a perfect **nLite®** pole for any cleaning challenge, all you need to do is decide which one is right for you.

First, choose between telescopic **nLite® One** or telescopic-modular **nLite® Connect** designs, then explore your further options within each range based on required reach and pole rigidity.

nLite® ONLINE CONFIGURATOR
Create your individual pure water kit:
www.ungerglobal.com/configurator

TELESCOPIC DESIGN

nLITE[®] one

Meet nLite[®] One - the new, telescopic pole range, made of the same premium materials as the original nLite[®] system and sharing many of its great features.

FAST & SIMPLE SET UP

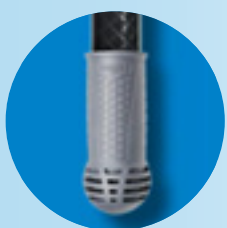

Traditional telescopic design allows you to easily extend and collapse the pole or adjust its length in seconds.

COMPACT SIZE

Short collapsed length makes the nLite[®] One poles ideal for ground level work or transportation in smaller vehicles.

NEW HANDLE DESIGN

The integrated round shaped handle is designed to sit comfortably in operator's hand for easier brush control, with textured surface for reliable grip. Features side aperture for the hose exit when fitted inside the pole.

FEATURES

DURABLE CLAMPS

For easy and fast one handed operation, with UNGER logo shaped screw for adjusting the tension without tools. Yellow clamps identify the next modular component to prevent unintentional separation.

HOSE MANAGEMENT

Use the practical nLite[®] Clips to secure the hose along the length of the Pole to avoid tangling and improve safety.

RED VISUAL WARNING AREA

At the bottom of each pole section helps you to prevent overextending the pole. Featured on both nLite[®] One and nLite[®] Connect poles.

MODULAR-TELESCOPIC DESIGN

nLITE[®] connect

The original Master and Extension Pole System, combining the best of telescopic and modular designs, has a new name - nLite[®] Connect.

FULL FLEXIBILITY

Modular construction allows you to add on or remove Extension Poles to create telescopic poles in different lengths for cleaning at various heights.

35 MM DIAMETER

Diameter of the nLite[®] Connect pole you are holding will never exceed 35 mm, irrespective of the number of Extension Poles.

YELLOW VISUAL WARNING AREA

The top of the Extension Pole helps to avoid unintentional separation.

DURABLE PLASTIC ENDCAP

Prevents accidental damage to the end of the pole and features a side aperture for the hose exit when used inside the pole.

WATER FED POLE SYSTEM

nLite® Pole Selection Guide

TELESCOPIC DESIGN

nLITE®
one

SIMPLICITY

Made of the same premium quality materials as the original nLite® series and retaining many of its premium features, the new telescopic nLite® One range is a winner when simplicity and speed of use are essential. All Poles can be extended, adjusted or closed in seconds – fast and easy!

Compact collapsed size of this range makes it ideal for ground level work and transportation in smaller vehicles.

GLASS FIBRE

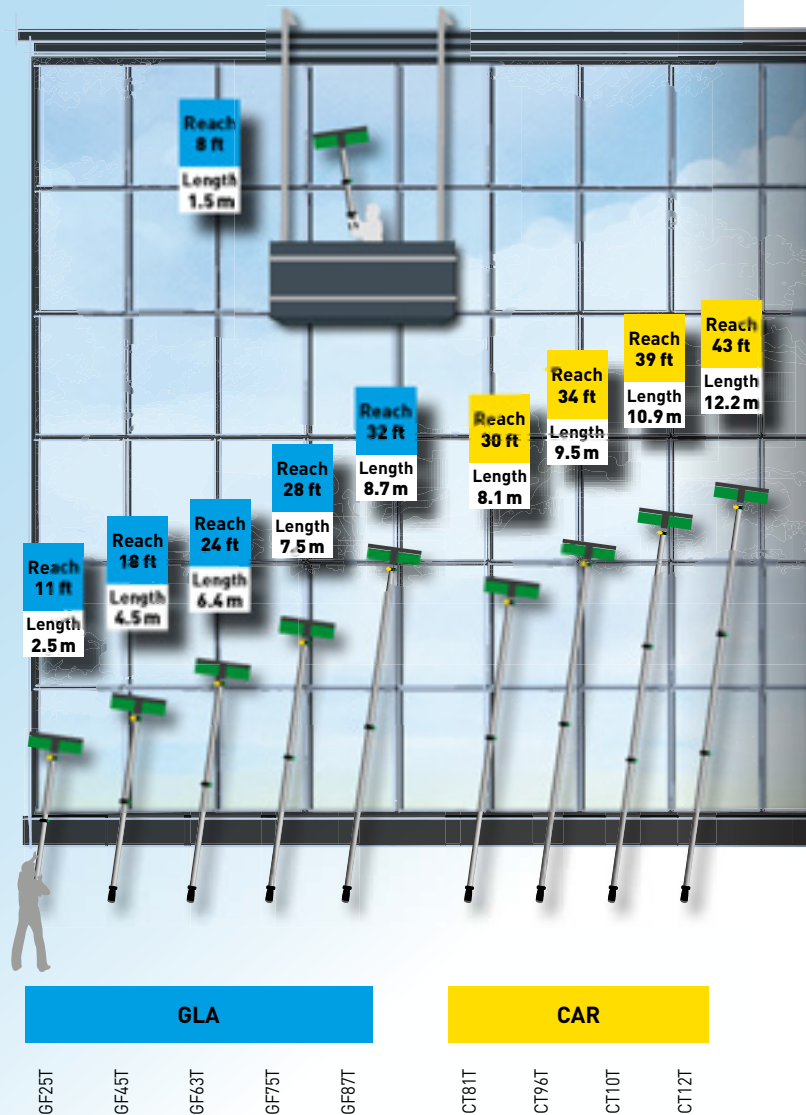

Choose between 6 pole length options, starting from 1.50m mini-pole that collapses to only 90 cm – ideal for abseiling or cradle work.

CARBON FIBRE

Featuring the same closed length as the nLite® Connect Carbon Fibre Poles, the fully telescopic design of the nLite® One poles provides even greater rigidity – perfect for easy brush control. Available in 4 pole length options.

GLA

GF16T

Greater heights require poles with greater rigidity and lower weight for optimal performance. The key factor affecting the rigidity of the pole is the material it is made of and its ultimate strength, measured in gigapascals (GPa).

Every nLite® pole is made from premium materials, offering best in glass rigidity, so with 6 options to choose from, there is a perfect nLite® pole for any working height.

ALU

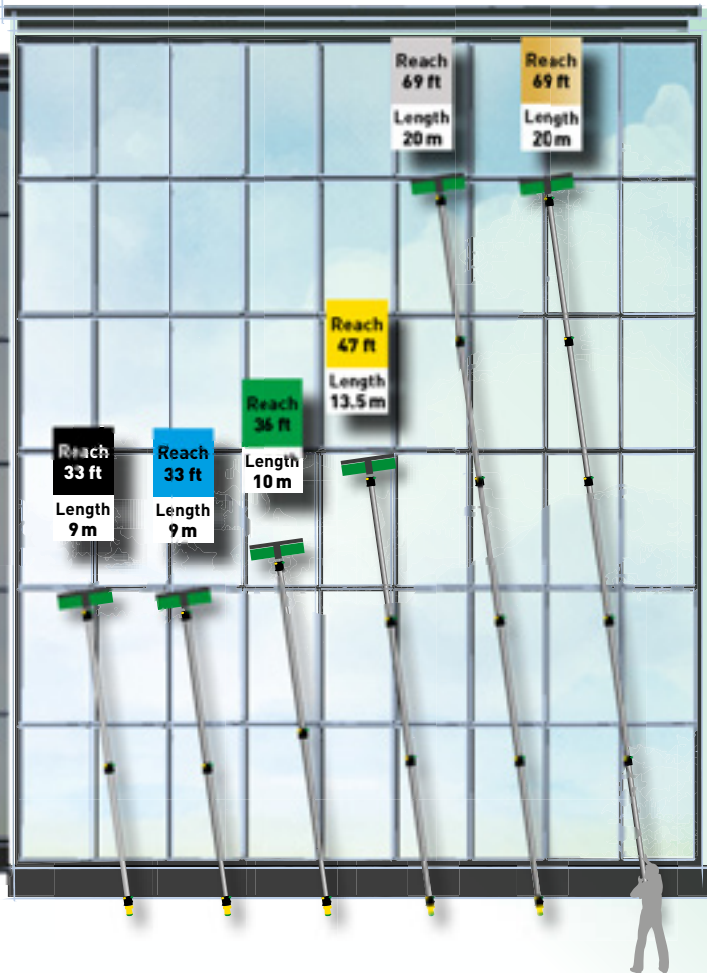

ALUMINIUM, 30 GPa

Recommended for working at heights of up to 9 m

GLA

GLASS FIBRE, 70 GPa

Recommended for working at heights of up to 9 m

MODULAR-TELESCOPIC DESIGN

FLEXIBILITY

The innovative nLite® Connect range utilises both telescopic and modular concepts, so you can add on or remove Extension Poles for comfortable cleaning at any height.

The Diameter of the nLite® Connect pole you are holding will never exceed 35 mm, irrespective of the number of Extension Poles.

The maximum number of Extension Poles that can be added to a Master Pole depends on the pole material – see guide on the left for details.

Choose from 6 high quality materials, selected by UNGER experts to provide the perfect balance between weight and rigidity at any height.

ALU

1x Master (AN45G/AN60G) + max. 1x Extension (AN30G)
max. 9 m/3rd floor

GLA

1x Master (GF45G/GF60G) + max. 1x Extension (GF30G)
max. 9 m/3rd floor

HYB

GOOSENECKS

C nLite® GOOSENECKS

For attaching the brushes to **UNGER nLite®** Water Fed Poles. Our carbon fibre gooseneck attachments will allow you to reach virtually any surface for cleaning, whilst keeping weight to a bare minimum for easier brush control. The full-carbon fibre **nLite®** Goosenecks are made from

seamless, lightweight, super solid carbon fibre tube. The premium quality carbon fibre material is built to last, and ensures a long life and guaranteed results. Compatible with most water fed brushes featuring standard thread.

More than 25 % lighter
and 5x stronger than our
previous version!

nLite® MULTILINK GOOSENECKS

Supertight carbon fibre goosenecks.

- Use individually or combine 2 or more to achieve any angle
- NLG20 and NLG30 include nLite® Thread Adapter for attaching the brush
- NLG15 includes adjustable plastic angle adapter

Part No.	Size	Weight	Material	Pack
NLG20	20 cm	130 g	Carbon	1
NLG30	30 cm	140 g	Carbon	1
NLG15	150 cm	390 g	Hybrid	1

C HiFlo® GOOSENECKS

For attaching the brushes to **UNGER HiFlo** and **nLite®** Water Fed Poles. Achieve nearly every working angle or distance with various combinations of Goosenecks.

- The adjustable collar can be locked at any point through 360° creating numerous angles for hard to reach areas
- Made of robust hard anodised aluminium

While stocks last

HiFlo MultiLink GOOSENECKS & EXTENSION

Hard anodised aluminium angle adapter.

- Strong, with secure connection
- Brush can be locked in any position through 360° creating the perfect working angle
- Combine 2 or more to achieve your perfect angle or distance

Part No.	Size	Pack
FTMGS	Short	1
FTMGL	Long	1
FTPLS	Straight	1

HiFlo MultiLink ADAPTER

Plastic angle adapter with screw adjustment.

- Simple to adjust
- Robust
- Compatible with all HiFlo Brushes

Part No.	Pack
FTGOS	1

i PURCHASING GUIDE

- 1. WEIGHT:** Choose lighter brush for longer periods of work.
- 2. SIZE:** 27 cm for standard applications; 40 cm for large areas; 60 cm for special applications, e.g. solar panel cleaning.
- 3. BRISTLES:** Consider the type of surface and level of soiling - see brush bristle guide overleaf for details.
- 4. SHAPE:** Rectangular - universal shape, ideal for any straight surface. Radius brush is perfect for window sills and frames.
- 5. JETS:** Consider the size of the area and type of glass to be cleaned, as well as water pressure available - see overleaf for information on jets types and using more than 2 jets.

ATTENTION: Some surfaces are easily scratched. Always test brushes prior to use.

nLite® BRUSHES

nLite® BRUSHES

Superlight **UNGER** Brushes are designed to get into the smallest corners and lift dirt from surfaces with a highly effective scrubbing action. The **nLite®** Brush body features cutting edge engineering and design, with a porous core and smooth solid exterior skin it offers enhanced structural stability and lighter weight than solid brush block manufacturing.

JETS

Whereas conventional brushes usually only have two jets, **nLite®** Brushes feature up to twelve quick release jets, making it much easier to control the water flow and rinse surfaces.

JET TYPES

Pencil Jets for Hydrophilic Glass
Fan Jets for Hydrophobic Glass

nLite® JETS

Interchangeable, quick release Jets for nLite® Brushes.

- Fan Jets for hydrophobic glass
- Pencil Jets for hydrophilic glass
- Mix and match depending on type of surface you clean

Part No.	Info	Pack
NLBJF	1 Set = 2 Jets	1 Set
NLBJP	1 Set = 2 Jets	1 Set

BRISTLE TYPES:

NATURAL BOAR BRISTLE: Coarse to the touch, naturally split along the length, each fibre cleans the surface with its entire body, effectively removing dirt from the tiniest of crevices.

POLYESTER BRISTLES: Lightweight and highly durable, with a choice of flagged or unflagged single strands.

YELLOW POLYESTER, featured on solar brushes, will remove even stubborn dirt yet are gentle enough not to damage delicate surface of the PV-/Solar panels.

ADDING MORE JETS

Create variety of spray patterns with up to 12 locations for interchangeable, quick release Fan or Pencil Jets.

Mix and match the Jets, depending on the type and size of surface you clean, for example 2 Fan Jets and 2 Pencil Jets.

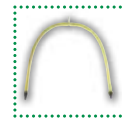

One set of Pencil Jets is included as standard with every Brush.

PRESSURE GUIDE

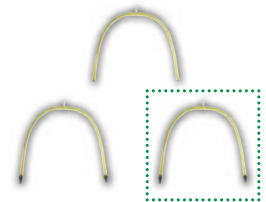

Adding more jets allows you to clean larger areas quicker and better.

The number of jets you can use depends on the level of water pressure – the higher the water pressure, the higher the number of jets you can use at one time.

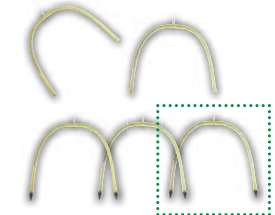

2 JETS =
Included with brush
1 x NLBJP 1 Set Pencil Jets
1 x NLHPC Hose Kit

4 JETS =
Extra parts required:
1 Set of jets

FT040	40 cm	Soft	1

A

PURE WATER FILTERS

Choosing Your Filter System

There are 2 recognised methods of pure water production in the window cleaning industry – **Reverse Osmosis** and **Deionisation**.

The **UNGER** range includes filters utilising either of these methods. This page will help you to decide which method suits your cleaning requirements best and will deliver the highest return on your investment.

UNGER DEIONISATION (DI) HYDRO POWER

p. 22

These filters utilise ion exchange resin which removes ionised salts and impurities from water, producing 100 % deionised pure water, with no waste water.

Though DI filters require a relatively low initial investment when compared to RO, frequent replacement of old resin with new is necessary for 100 % pure water production.

Mobile design and portability, with no need for power or pumps, our DI filters can be easily set up anywhere – all you need is a tap water supply.

UNGER REVERSE OSMOSIS (RO)

p. 30

These filters utilise a mechanical filtration process, through a semipermeable reverse osmosis membrane, which removes up to 98 % of minerals from the water. **UNGER RO30** has a built-in resin filter that completes the purification process to produce 100 % pure water.

Despite its comparatively high purchase cost, RO filters require minimal maintenance and offer a cost effective way of producing a constantly high volume of pure water. Incoming water is separated into pure and waste water during the filtration process, requiring a separate drainage facility to flush away the impurities as waste water.

RECOMMENDED FOR:

- Areas with soft or medium water hardness level
- Small size filters are ideal for cleaning small to moderate size areas, as well as an entry level solution for professional cleaning
- Medium to large sizes – for frequent cleaning of large areas
- Use as final stage of water purification process, after RO membrane, to achieve 100 % pure water

RECOMMENDED FOR:

- Areas with hard or very hard water level
- Constant, high volume pure water production

nLite® HYDRO POWER DI FILTERS

Quality Tools for Smart Cleaning

A

THE HYDRO POWER DI SYSTEM

The Most Efficient DI Pure Water System Ever!

Inspired by our customers and packed with the latest patented design innovations, **HydroPower DI** Filters offer a wealth of benefits for professional window cleaners (and everyone who works or cleans with pure water).

HydroPower DI Filters exceed standard DI filter efficiency, performance, workflow and comfort thanks to these new features:

- **FloWater Technology**
- **QuickChange Resin Bags**
- **FastLock Opening**

QUICKCHANGE RESIN BAGS

The ingenious **QuickChange Resin Bags** allow users to speed up the resin change process by up to 10 times - simply remove the bag with expired resin and insert a new one.

The new **QuickChange Resin Bags** offer fast and easy resin replacement on the spot with minimal mess - anytime and anywhere!

- Resin change process is now as simple as changing coffee pods in a coffee machine
- No need for time-consuming emptying, rinsing and filling up of narrow filter vessels
- Each bag is made from a water-permeable material and contains a pre-proportioned amount of **UNGER High Capacity Premium Grade Virgin Mixed Bed Resin**

COMPATIBLE WITH LOOSE RESIN

The **nLite® HydroPower DI** Filters can also be filled with loose resin, retaining the high efficiency enabled by **FloWater** technology. If like many other users you prefer the loose resin option, you will find that the large diameter vessel enables you to fill, empty and refill the filter easier and faster.

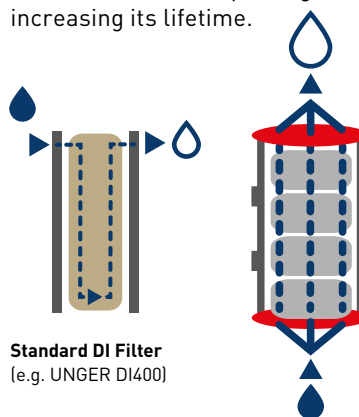

Whilst fully compatible with most ion exchange resins available on the market, for maximum efficiency we recommend using **UNGER High Capacity Premium Grade Virgin Mixed Bed Resin** due to its optimal density and moisture content.

Supplied in a 25 L bag (DIB25) or 25 L bag in a re-sealable bucket (DIP25), **UNGER Resin** is available to order from Approved **UNGER** Dealers.

FLOWATER TECHNOLOGY

The innovative water distribution system ensures more efficient water flow through the entire vessel, improving resin efficiency and increasing its lifetime.

Standard DI Filter
(e.g. UNGER DI400)

HydroPower DI Filter
HIGHER EFFICIENCY

SIMPLE AND EFFECTIVE HANDLING

FastLock Opening

- Easy and quick opening and locking of the filter
- Safe, self locking mechanism
- Features pressure release valve

Removable cover

- Including resin stop mechanism to prevent loose resin from leaking with outgoing water flow

TDS Meter (Total Dissolved Solids)

- For instant measuring of the outgoing water hardness

Standard hose fittings

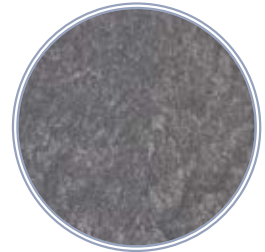

- Reliable quick release connectors, suitable for most hosesock type fittings commonly used on most water fed poles

nLite® HYDRO POWER DI FILTERS

The HydroPower DI System

FastLock Opening
Easy & quick opening of the bottle, with pressure release valve.

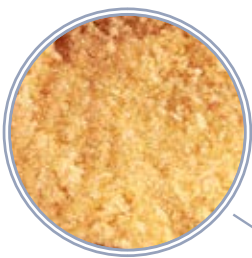

PP NXT Material
Enhanced material by 50 % glass fibre. Stronger, lighter and safer.

QuickChange Resin Bags
Quick and easy to change on the job. No more wasted resin.

FloWater Technology
Effectively distributes water flow through the resin, increasing pure water output.

FILTER PERFORMANCE

WATER HARDNESS

Filter productivity depends on several factors, such as filter size, water pressure, temperature and most importantly the level of water hardness.

Water hardness is measured in ppm (parts per million) and varies by geographical area.

The table below provides guidance on the expected **HydroPower DI** Filter performance, before the resin is spent and has to be replaced.

Small (HydroPower DI12...)

Water Hardness*	Pure Water Output (l)
Soft	> 1.570
Medium	470 – 1.570
Hard	260 – 470
Very Hard	< 260

Medium (HydroPower DI24...)

Water Hardness*	Pure Water Output (l)
Soft	> 3.140
Medium	1.130 – 3.140
Hard	670 – 1.130
Very Hard	< 670

Large (HydroPower DI48...)

Water Hardness*	Pure Water Output (l)
Soft	> 6.360
Medium	2.450 – 6.360
Hard	1.490 – 2.450
Very Hard	< 1.490

*Water Hardness:

Soft	< 100 ppm
Medium	100 – 250 ppm
Hard	250 – 400 ppm
Very Hard	> 400 ppm

All values based on 10 ppm as maximum for Pure Water quality.

ECO FLO - OPTIMIZES THE WATER FLOW

Depending on the pressure of the incoming water supply, using the **HydroPower EcoFlo** insert allows you to restrict the water flow to an optimum level of between 120 – 150 L per hour, which is ideal for regular glass cleaning.

Optimising the water flow in this way allows you to use less pure water, extending the lifetime and performance of a single resin refill in the **HydroPower DI** Filters by at least 20 %, without compromising the quality of your work.

- Automatically reduces the water flow – see table:
- Fits any industry standard valves
- Can be fitted, removed or replaced inside the water flow valve in seconds – simple
- Supplied as standard with all **HydroPower DI** Filters, regardless of size
- Replacement can be ordered at: www.ungerglobal.com/ecoflo

nLite® HYDRO POWER RO XXL TRAILER

HYDRO POWER XXL

**RO
FILTER**

PRODUCT DEMO
HydroPower RO XXL
www.ungerglobal.com/video

THE HYDRO POWER RO XXL SYSTEM

- Fully integrated trailer system with reverse osmosis filter and 750 L water tank
- Total flexibility for producing and transporting 100 % pure water for water fed pole cleaning!
- The ONLY real alternative to commercial van mounted systems

MOBILITY:

Suitable for vehicles with towing capacity of 1.350 kg. High capacity baffled tank integrated into lightweight chassis for easy towing. DOT road specification, single axle, integrated lights and indicators with brake assist. Supplied with European standard coupling, jockey wheel and manual parking brake. Conforms to EU regulations.

- **NEW:** Automatic flush function helps to prevent scaling and pollution of the RO membrane and prolong its lifetime.
- Maximum tank volume: 750 L, capacity: 650 L pure water
- 1 or 2 man operation via 2 stainless steel hose reels and 2 x 12 V (10 bar, 150 psi) pumps
- 2 high quality 100 m hoses for optimal reach
- Pure water output – up to 125 L per hour per person
- Digital controller monitors water flow, pressure and battery power
- Control water flow manually or by wireless remote control (max. reach 100 m in open area)
- 3 stage water purification production with dedicated 12 V (10 bar, 150 psi) pump. (Carbon Pre-filter, RO Membrane and **HydroPower DI Filter Polisher**)
- Integrated TDS meter
- High capacity 12 Volt AGM battery offers 'all day' operation before requiring recharge
- Maintenance free 210 amp hour AGM battery with mains charger supplied
- Optional: Protection cover available for hose reels.

SAFETY:

The multi-chamber tank design with low centre of gravity is designed to maximise stability during transportation. Also includes Auto Shut Off features, activated during water production mode when the tank becomes full and during use when the TDS of the outgoing water measures 5 ppm (can be changed to lower or higher number).

FLEXIBILITY:

The flow rates for Wash and Rinse modes can be adjusted anytime at the digital control panel. This allows the operator(s) to choose more or less powerful flow rates to suit the cleaning job, saving and conserving water when less intense water flow is needed. You can also switch between Wash and Rinse modes at the touch of a button using the wireless remote control.

PROTECTION:

Optional protection cover for the hose reels. Robust truck tarpaulin that can be fixed on the new fixing point at the trailer frame.

NEW

AUTOMATIC FLUSH FUNCTION

- Extended lifespan of the membrane: An automatic 5 minute rinse at the start of the water filtration process flushes out impurities and helps to keep the membrane clean which significantly extends its service life.
- Reduced DI resin consumption: Optimised membrane performance results in higher purity of the water passing through the DI filter and therefore extends resin lifetime.
- Simplified membrane care: The conservation liquid is rinsed out from the membrane automatically, saving time and effort it would take you to do this manually.

PURE WATER RO FILTERS

R030G

R030C

RO
FILTER

A

REVERSE OSMOSIS FILTERS (RO)

**Perfect for constant, high capacity, pure water production.
Easy Operation: No switch, “Plug & Play”.**

The physical reverse osmosis process removes approx. 98 % of minerals from the water. The built-in resin filter completes the purification process to produce 100 % pure water.

HiFlo RO FILTER

- Automatic pump control with dry run protection for added safety
- Pure water output improved to 60 % at 350 L/hr
- Built in resin filter ensures 100 % water purity
- Economic way of pure water production for general cleaning purposes
- Built in TDS meter monitors water and resin quality
- Includes robust trolley frame for complete mobility
- Weight app. 50 kg
- No control valves or covers that could accidentally be adjusted
- RO30C: includes Carbon Pre-Filter against chlorine in the water (lasts app. 100.000 L at 2 ppm chlorine)

HiFlo RO FILTER

HTK14	6.63 m	1.87 m	4	1.7 kg	1

Adapters for connection of 2 hoses into one.

- Includes 2 x Hose End Pieces, 1 x Quick Connector
- Insert the Hose End Pieces into each hose and connect using the Quick Connector

Part No.	Pack
NLQUI	1

Durable plastic cap prevents accidental damage to the pole.

- Insert into base section and secure by closing the clamp
- Features aperture for hose
- Fits Master and Extension Poles

Part No.	Pack
TMECP	1

TRADITIONAL WINDOW CLEANING

All **UNGER** products are expertly designed to meet the high demands of the Professional Window Cleaning Industry.

Innovation and ergonomics are always at the forefront of our research and product development to enable professionals to work faster, more efficiently and above all safely.

Today our range includes wide selection of traditional handheld tools and accessories, built to last and withstand continuous use, day after day.

Most of our tools can be fitted to **UNGER** telescopic pole, allowing you to clean at heights of up to 10 m safely from the ground.

Look out for the **ErgoTec**® Locking Cone symbol, identifying products that can be locked securely on the pole with a quick-release button preventing falling off or spinning.

Our extensive range includes everything to build up a professional kit – from protective gloves, belts and pouches to specialist detergents, buckets and cloths.

ErgoTec® NINJA SQUEEGEE

The ultimate performance

Available in 2 working angles:
30° & 40°
Available sizes:
20 cm – 105 cm

Ergonomic bi-component 180° swivel handle with TriLoc mechanism for secure hold of the channel and centre position lock option. Extruded Aircraft Aluminium T6 channel will not bend or break. Complete with soft rubber.

38

ErgoTec® NINJA WASHER

Makes tough jobs a lot easier

Strong yet lightweight hard anodised aluminium T-Bar with 180° swivel and with centre position lock option. Highly absorbent sleeve with 2 abrasive side pads features built-in rows of scrubbing fibres.

43

ErgoTec® NINJA SCRAPER

Practical Holster for the Belt

The World's First 2-In-1 Scraper for Professional Window Cleaning! The new **UNGER ErgoTec® Ninja Scraper** features a unique pivoting mechanism which allows the angle of the scraper head to be switched from straight to 30° at the touch of a button.

47

ErgoTec® NINJA BUCKET ON A BELT

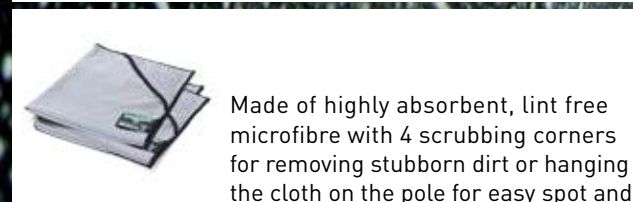

Fits all **UNGER** squeegees. Holds 2 squeegees, 1 washer and 1 scraper. Suitable for left or right handed work. Clip lock for quick fitting to any belt.

56

ErgoTec® NINJA MICRO WIPE

High performance microfibre cloth

Made of highly absorbent, lint free microfibre with 4 scrubbing corners for removing stubborn dirt or hanging the cloth on the pole for easy spot and corner cleaning at height. Machine washable up to 500 times. Available in 3 sizes.

GLASS SCRAPERS & BLADES

UNGER SCRAPERS

The **UNGER GLASS SCRAPERS** with carbon or stainless steel reversible blades, featuring 2 sharp edges, are perfect for removing bird droppings, paint, tape, stickers and postconstruction debris from the glass.

The **UNGER SURFACE SCRAPERS** with reversible stainless steel blades, featuring 1 sharp and 1 blunt edge, are great for heavy duty applications. Use the blunt edge to remove stubborn dirt, including cement and stucco.

i UNGER PREMIUM GLASS SCRAPER BLADES STAINLESS STEEL

- Durable dual-sided replacement scraper blades are made from rust resistant 440A grade stainless steel which provides excellent edge retention and break resistance, ensuring that blades stay sharp for a long time.
- Each blade undergoes a precise angle honing process, creating a razor sharp and consistent cutting angle, enhancing the speed and effectiveness of every scraper pass.
- Perfect for removing paint, decals, tape, heavy soil and debris from glass surfaces, as well as construction clean up.
- Compatible with most flat or angled 10 cm (4") or 15 cm (6") scrapers.

i UNGER CARBON STEEL BLADES

- Made of extra-sharp carbon steel and each blade is 4-way sharpened
- Two sharp sides for twice the wear on selected scraper blades
- Both sides lacquered for longer rust protection
- Individual wrapping in wax paper helps to protect blades from rusting and sticking together
- Safely packed and stored in convenient plastic dispenser. Blades remain dry and always available in safe dispenser

ERGOTEC® NINJA

Practical Holster
for the Belt

Available in 2 sizes:
10 cm 15 cm

Switch the angle of the scraper head from 0 to 30° at the touch of a button!

Safer and easier blade change – push slider release lock to access and change blade

Scraper includes removable protective blade cover

Practical Holster & Scraper Combo

ErgoTec® NINJA SCRAPER

The world's first 2-in-1 scraper for professional window cleaning.

- The angle of the scraper head can be switched from straight to 30°
- Safer and easier blade change
- Fits securely to poles with Locking Cone
- Includes UNGER Premium Glass Scraper Blade Stainless Steel

Part No.	Blade	Pack
EN100	10 cm	5
EN150	15 cm	5

ErgoTec® NINJA HOLSTER

Spare blades: RB100.

- Advanced ergonomic handle design for comfortable use
- Angled, heavy metal head with reversible sharp/blunt edge blade

Part No.	Size	Pack
SH000	10 cm	10

i → EXPERT TIPS

- Check if glass is scratch-resistant and suitable for scraper use. Unsuitable for use on Plexiglas, crown glass, solar glass, safety glass (ESG). Follow the manufacturer's care instructions
- Perform a scrape test in advance on an inconspicuous section
- Before starting work, check the glass for damage and report it, if necessary
- Check the blade for damage and change it, if necessary, or reverse it
- The surface to be scraped should always be wet
- It is best to use a release agent, e.g. "UNGER's Liquid"
- Always scrape in one direction! Never pull the scraper back – scratch risk!
- After scraping, check if adhesive or stucco residues are stuck to blade. If necessary, change or reverse blade

ATTENTION! UNGER blades are razor-sharp.
Always handle with greatest care.

ErgoTec® LONG HANDLE SCRAPER

The surface scraper with extra power with bi-component handle.
Spare blades: RB100.

- 25 cm long handle for extra reach and power
- Reversible sharp/blunt blade
- Blade protection cap for safety

Part No.	Size	Pack
SH250	10 cm	10

STAINLESS STEEL BLADES FOR SURFACES

Reversible sharp/blunt edge stainless steel blade.
For SH000, SH250

- Sharp edge for scraping off paint, stickers, etc.
- Blunt side for removing cement and stucco
- Compact dispenser stores new and used blades
- Blades easily slide in and out of dispenser

Part No.	Size	Info	Pack
RB100	10 cm	1 dispenser = 10 blades	10 disp

TELESCOPIC POLE SYSTEM

TELESCOPIC POLE SYSTEM

The **UNGER Telescopic Pole System** puts everything within arm's reach.

Telescopic poles in various lengths and with ergonomic handles allow for secure operation from the ground – without ladder – and in addition save time and money.

OptiLoc

- 2 or 3 section telescopic pole
- Available in 9 different lengths
- Reach in excess of 9 m (30 ft)
(max. pole length 9 m (30 ft) + body height)
- **ErgoTec®** Locking Cone included

TelePlus System

- Extendable modular telescopic pole
- 2 or 3 section poles
- Extensions 1.25 m (4 ft) or 2.00 m (6.5 ft) – simply attach
- Reach in excess of 10 m (33 ft)
(max. pole length 10 m (33 ft) + body height)
- **ErgoTec®** Locking Cone included

UniTec

- 2 section telescopic pole
- Available in 3 different lengths
- Interior lock, twist right or left for locking
- Reach in excess of 4 m (13 ft)
(max. pole length 4 m (13 ft) + body height)

i AVOID WORKING ON LADDERS

- **UNGER** telescopic poles allow you to work safely reaching up to 10 m height, while standing on the ground
- The **UNGER ErgoTec®** Locking Cone ensures safer operation, since the tools lock in place and cannot drop
- Most accidents with ladders are caused by wrong handling, and not their damage
- Always check whether cleaning from the ground is a safe option. If not, discuss safe alternatives and corresponding costs with your client
- Always insist on safe working conditions. Do not risk your life just because the client does not accept certain services!
- Always choose the safest way. Ladders should not automatically be first choice simply due to convenience
- Ladders become extremely unsafe under certain conditions: Rain makes the ground slippery; uneven ground or contaminations can result in tilting, or even falling

ADAPTERS & MAINTENANCE

Quality Tools for Smart Cleaning

ANGLE JOINTS

Freely adjustable angle allows access to hard-to-reach places.
 - Available in sturdy zinc version or lightweight plastic version
 - Fits to telescopic pole

Part No.	Version	Pack
CJA00	Zinc	5
CJN00	Plastic	5

TOOL HOLDER

Ideal for paint rollers, scrapers and other tools with handle.

- Enables safe operation from the ground with secure tool handle lock
- Adjustable angle that locks securely via bolt with nut
- Fits to telescopic pole

Part No.	Pack
PBR00	5

THREAD ADAPTER 1/2"

With 1/2" thread. Fits conventional brooms.
 - Adapter is inserted into pole and locks in place via stand spring

Part No.	Pack
BE000	5

BULB CHANGER

For changing round light bulbs in high access areas without ladders. Rubber coated spring steel fingers.

- Enables safer and faster bulb change from the ground
- Fits to telescopic pole

Part No.	Pack
BS010	5

ErgoTec® LOCKING CONE

Securely locks tools on the telescopic pole.
 - Compatible with all UNGER systems
 - Quick and easy tool change via release button

Part No.	Pack
NCAN0	5

FLOOD SUCKER

For changing flat light bulbs in high access areas without ladders. With suction cups.

- Enables safer and faster bulb change from the ground
- Fits to telescopic pole

Part No.	Pack
FS000	5

CONE

For attaching or screwing on tools.
 - Cone is inserted into pole and locks in place via stand spring

Part No.	Pack
NCA00	5

FIXI-SYSTEM

Innovative cleaning system, ideal for cleaning large and high surfaces such as boats and vehicles.

- Firmly retains a sponge or cloth by tightening the locking collar
- Fits on telescopic pole
- Stiff bristle brush effectively removes stubborn dirt

Part No.	Version	Pack
FIX10	Clamp	5
HBR00	Brush	5
SP010	Sponge	10

GLASS CLOTHS

WINDOW MICROFIBRE CLOTH SYSTEM

CLEANING WITH MICROFIBRE

Microfibre is highly efficient in removing dirt, oils, embedded soils and bacteria from surfaces without chemicals due to its slightly abrasive fibre texture. When used dry the statically charged fibre attracts and holds dust in place, unlike cotton or paper cloths.

Highly absorbent microfibre requires less water and chemicals for effective cleaning, allowing a reduction in water and harsh chemical consumption.

Microfibre is hard wearing and reusable generating less waste for landfill disposal than cotton or paper disposable cloths.

ErgoTec® NINJA MICROWIPE

Best in Class premium lint free microfibre cloth.

- Fabric weight: 400 g/m²
- Double sided – coarse for cleaning and smooth for polishing
- With 4 scrubbing corners for removing stubborn dirt
- Pocket corners for hanging the cloth on the pole for detailing at height
- Reinforced overlock stitch along the edges ensures shape retention
- Machine washable up to 500 times

Part No.	Size	Material	Pack
MN40H	40 x 40 cm	Microfibre*	5
MN55H	55 x 55 cm	Microfibre*	5
MN60H	80 x 60 cm	Microfibre*	5

MICROWIPE LITE

Lint free microfibre cloth.

- Fabric weight: 300 g/m²
- Super soft, easy to use low friction material
- Overlock stitch along the edges ensures shape retention
- Machine washable up to 200 times

Part No.	Size	Material	Pack
MF40E	40 x 40 cm	Microfibre*	10
MF60E	60 x 80 cm	Microfibre*	10

MICROWIPE

The "Original" lint free microfibre cloth.

- Fabric weight: 350 g/m²
- Double sided – coarse for cleaning and smooth for polishing
- Overlock stitch along the edges ensures shape retention
- Machine washable up to 500 times

Part No.	Size	Material	Pack
MF40L	40 x 40 cm	Microfibre*	10
MF60L	60 x 80 cm	Microfibre*	5

CHAMOIS

Professional quality sheepskin chamois.

- Excellent for glass cleaning
- Quality checked by hand

Part No.	Size	Material	Pack
FS450	ca. 0.4 m ²	Sheepskin	5

SCRMW	92 x 92 cm	100 % Linen, washed	10

* 70 % polyester, 30 % polyamide

PROTECTIVE GLOVES

Quality Tools for Smart Cleaning

PROTECTIVE GLOVES

NEOPRENE GLOVES

Get a grip on winter weather in these robust and durable protective Gloves. Flexible lightweight Neoprene offers excellent protection against the cold, with adjustable Velcro fastener on wrist helping protect the hand from wind.

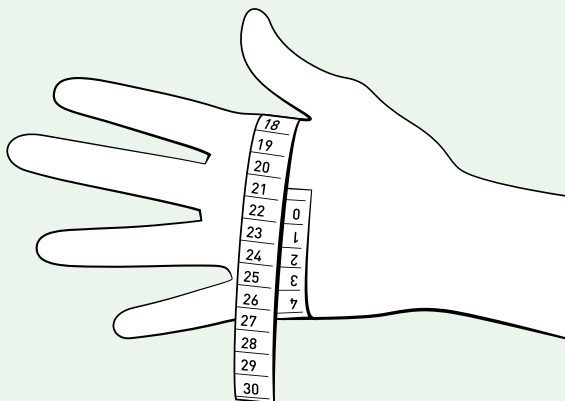

POLE GLOVES

Premium quality Pole Gloves for all-year-round protection. Specifically designed to enhance grip, whilst protecting hands from fibre dust abrasion, grit, weather conditions, and chaffing, associated with prolonged pole use.

IDENTIFY YOUR GLOVE SIZE:

Measure the circumference of your hand at the widest point, right under the knuckles, excluding thumb. Check our size guide charts on the right to identify your glove size.

ErgoTec® NEOPRENE GLOVES

Protective gloves against cold, made of 3 mm thick textile neoprene.

- Tear resistant stitching and glue seal along seams for durability
- Knuckle inserts and flexible curved shape for ultra comfort
- Non slip palm with screened-on silicone for secure grip
- Adjustable Velcro wrist strap

Part No.	Size	Hand circumference	Material	Pack
GLO2S	S (7)	18 – 19 cm	Neoprene, textile	5
GLO2L	L (8)	20 – 21 cm	Neoprene, textile	5
GLO2X	XL (9)	22 – 23 cm	Neoprene, textile	5
GLO2Z	XXL (10)	24 – 25 cm	Neoprene, textile	5

NEOPRENE GLOVES

Protective gloves against cold. Rubber Neoprene.

- Tear resistant stitching and glue seal along seams for durability
- Soft and comfortable on inside
- Non slip palm for secure grip
- Adjustable Velcro wrist strap

Part No.	Size	Hand circumference	Material	Pack
GLOV1	S (7)	18 – 19 cm	Neoprene, rubberized	10
GLOV2	L (8)	20 – 21 cm	Neoprene, rubberized	10
GLOV3	XL (9)	22 – 23 cm	Neoprene, rubberized	10
GLOV4	XXL (10)	24 – 25 cm	Neoprene, rubberized	10

While stocks last

POLE GLOVES

Premium quality gloves for all-year-round protection.

- Ergonomic design for full hand movement and pole control
- Non-slip textured reinforcement panels on palm and fingers
- Teflon coated fabric for superior water resistance, with triple seams
- Adjustable velcro wrist strap with hook and loop for secure fitting
- Webbing loop for added ease while putting glove on

Part No.	Size	Hand circumference	Material	Pack
GLOC1	S (8)	19 – 21 cm	Blended fabric*	5
GLOC2	L (9)	22 – 23 cm	Blended fabric*	5
GLOC3	XL (10)	23 – 24 cm	Blended fabric*	5
GLOC4	XXL (11)	24 – 26 cm	Blended fabric*	5

* Palm: 50 % polyester, 50 % polyethylene; Back of the hand: 50 % nylon, 50 % polyethylene

BELTS, POUCHES

ErgoTec® BELT

Solid belt for carrying tool holders. 4 eyes, padding, quick release.

Part No.	Size	Material	Pack
BSTBT	80 – 130 cm	Nylon	1

ErgoTec® POUCH

3 compartments. Dry and damp cloths can be stored separately. Front pocket with flap and Velcro fastener.

Part No.	Size	Material	Pack
BSPOU	30 x 37 cm	Nylon	1

ErgoTec® DOUBLE HOLSTER

Strong leather holster with two loops. With snap fasteners for easy attachment to belt.

Part No.	Size	Pack
BSDHR	8 x 13 cm	1

CANVAS APRON

Made of solid nylon with 2 large compartments for cloths, scraper, etc.
 – Keeps essential tools protected
 – Great for working at height
 – Includes adjustable belt

Part No.	Material	Pack
SRZ10	Nylon	10

THE BELT

Solid nylon belt for attaching bucket and other tools on a belt.
 – Convenient loops for tools (squeegee, etc.)
 – Clip lock for quick fastening
 – Adjustable length

Part No.	Material	Pack
UB000	Polypropylene, nylon	5

BUCKET ON A BELT

Durable plastic holder for squeegee, washer, scraper.
 – Conveniently holds all important tools
 – Ideal for use on ladders, indoors or in narrow spaces
 – Clip lock for quick fastening

Part No.	Can hold the following tools	Pack
BB010	NINJA: 1 washer, 2 squeegees, 1 scraper	5
BB020	Classic: 1 squeegee, 1 washer, 1 scraper	5

HENRY'S DOUBLEHOLSTER

Leather tool holder, two compartments. For fastening to belt.
 – Convenient for holding squeegees and washers
 – Extremely solid quality leather
 – Fits on most belts

Part No.	Pack
HT000	5

NYLON POUCH

Solid pouch with 2 pockets. Fits all UNGER belts.
 – Provides storage for mobile phone
 – Sturdy, solid and very durable

Part No.	Pack
NYLPO	10

BELT FOR SPRAYER ON A BELT

Durable belt, also suitable for attaching other tools.
 – Solid nylon material
 – Clip lock for quick fastening
 – Adjustable length

Part No.	Pack
BSOAB	5

BUCKETS AND SOAP

BUCKET 28 L

Large bucket for glass cleaning.

- Holds 45 cm squeegee
- Features measuring marks and 2 drains
- Available optional accessories: lid, castors, bucket sieve

Part No.	Capacity	Pack

INDOOR WINDOW CLEANING

USA, Chicago,
ISSA/INTERCLEAN 2016

STINGRAY

The most efficient indoor cleaning tool ever!

Recent research indicates that when cleaning indoor surfaces, such as windows, mirrors and elevators, cleaning professionals face 2 key challenges – efficiency and safety, especially when working at height. Current tools and methods require time consuming re-arranging of furniture and electrical equipment for safe access or to reach high or unusually positioned windows.* Result – wasted time and increased risks and costs associated with the use of ladders and access equipment. Moreover, the need for intensive staff training creates additional problems, so these infrequent periodic cleaning tasks are often passed to specialist teams or subcontractors.

If this all sounds familiar, take a look at **Stingray** - the latest innovation from **UNGER** – a revolutionary, ready-to-run solution to your indoor window cleaning needs, also perfect for a multitude of other surfaces too. It cleans windows up to **25% faster** and uses up to **39% less chemical** than conventional sprayer and cloth method.**

Powered by **3M Scotchgard™** and utilising several patent pending features, the **Stingray** allows you to clean indoor surfaces at heights of up to 4 m (13 ft) safely from the ground, with minimal training required even for your least experienced staff. This means that surface cleaning at height can now be safely carried out by in-house teams on a daily basis, reducing risks and costs whilst increasing building cleanliness and customer satisfaction. Ideal for day time cleaning, **Stingray** also features an enclosed spraying nozzle, so there are no drips, runs or overspray during work, minimising slip hazards and creating a safer cleaner environment for all.

STINGRAY SYSTEM

Quality Tools for Smart Cleaning

► FASTER

Speed up indoor glass cleaning up to 25 %**

- New **one step** "Apply and Clean" Technology
- New microfibre **TriPad** for simultaneous cleaning of windows & frames
- Enclosed spray nozzle design prevents over-spraying, eliminating drips, streaks and the rework associated with wet window sills
- 15 % larger pad size saves time via reduced frequency of pad change (compared to traditional pads e.g. UNGER PHL20)

► ERGONOMIC AND SAFE

Comfortable and safe working up to 4 m (13 ft)

- Enclosed spray nozzle prevents inhalation of cleaning liquid
- Triangular pole shape facilitates enhanced grip for perfect control
- Stingray's weight distribution is towards the cleaning surface, so it is easy to use and minimizes back strain
- Battery powered sprayer helps to reduce operator fatigue

► TOTAL FLEXIBILITY

Mastering every challenge with a single tool

- Unique triangular **TriPad** shape makes it easy to clean corners and other hard to reach areas
- New **Easy-Click-Pole technology** – simply add on another pole extension to reach heights of up to 4 m (13 ft)!

► INCREDIBLE EASE-OF-USE

Professional results with minimal training

- Ready-to-use, easily replaceable pouches, pre-filled with top quality 3M Scotchgard™ professional glass cleaner
- Spray activation button on each **Easy-Click-Pole** as well as on the handheld unit – press & play!

STINGRAY SYSTEM

USA, Chicago,
ISSA/INTERCLEAN 2016

Unrivalled efficiency offers business growth potential

The new **UNGER Stingray** system stands for excellent results even without professional window cleaning experience. Its highly intuitive design requires minimal operator training and it is suitable for most washable surfaces!

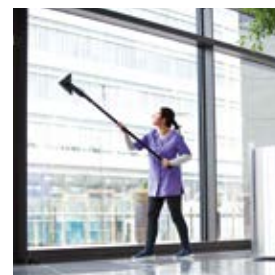

Increased productivity, greater cost efficiency and sustainability because:

- ▶ It speeds up indoor glass cleaning by up to 25 %*
- ▶ It ensures 39 % less liquid consumption*
- ▶ Numerous ergonomic benefits improve workers' comfort and safety – less downtime and health risks!
- ▶ Perfect for daytime cleaning: no drips and no runs = no mess and health risks!

Multitude of applications: indoor glass & windows, glass partitions, showcases, mirrors, glass refrigerator doors, elevators, washable doors & tables, etc.

Your investment will pay off within a few months!

Stingray GLASS CLEANING TRIPAD

Microfibre Cleaning Pad

- Triangular shape for perfect reach into corners
- Superb cleaning power thanks to premium microfibre
- Elastic bands for secure fit and easy assembly
- 5 pads in a box (= minimum order quantity)
- 70 % polyester, 30 % polyamide

Part No.	Size	Material	Pack
SRPD1	25 x 25 x 25 x 0.25 cm	Microfibre	5

*Powered by 2 x AA batteries lasting out approx. 6 months based on 11.000 cycles of one-second pushes **at low to medium polluted surfaces

STINGRAY GLASS CLEANER

The perfect cleaning liquid for all glass surfaces with excellent cleaning power.

Powered by **Scotchgard™ Protection**, **Stingray Glass Cleaner** effectively removes fingerprints, lipstick and even permanent marker, whilst also making glass easier to clean over time.

- Performs like a heavy duty glass cleaner, but without the high content of solvent or ammonia
- Cleans and protects glass and other silica-based surfaces such as uncoated granite, ceramic and porcelain
- Keeps glass looking clean longer
- Stingray Glass Cleaner contains < 0.1 % VOC
- Reduces fogging on mirrors and other glass surfaces
- Also cleans but may not protect other surfaces such as stainless steel, chrome, aluminum, plastic, acrylic glass, etc.

Stingray GLASS CLEANER

Professional Glass Cleaner powered by 3M Scotchgard™

- Easy gliding, quick drying - high efficiency
- Cleaning power up to 150 m² **
- 24 pouches (150 ml) in a box (= minimum order quantity)

Part No.	Content	Weight	Pack
SRL01	150 ml	270 g	24

INDOOR WINDOW CLEANING SYSTEM

EFFECTIVE WINDOW CLEANING

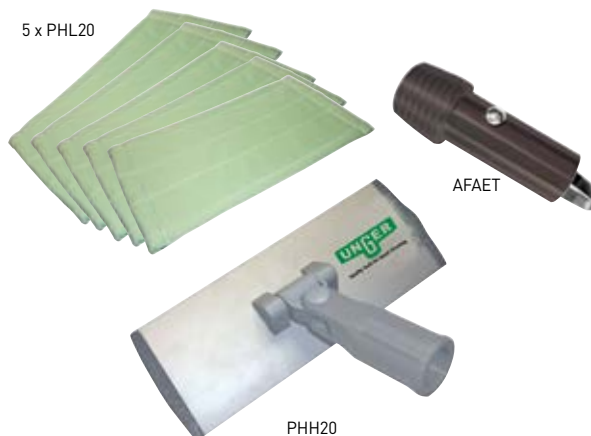

THE UNGER INDOOR WINDOW CLEANING SYSTEM

Easy to use, professional system, ideal for every day cleaning, as well as polishing of glass and mirrors. Perfect for any user without window cleaning experience. Can be used with **UNGER** aluminium poles for safe and quick cleaning of high level windows, skylights and glass balustrades.

- Combine with **UNGER** telescopic to reach heights of up to 10 m (33 ft) safely from the floor
- Minimum water required - no spills, no slips, no water wastage!
- Time saving one step cleaning
- No need for chemicals - save money and safer for operator and the environment!

LITTER PICKING

GRABBER AND BAGGER SYSTEM

We at **UNGER** have been manufacturing professional cleaning products, including litter picking equipment, since 1964. In this time we've learned a lot about what makes great tools by working closely with our customers, environmental charities and volunteer groups.

In 2013 we launched our **WAR ON LITTER™** campaign, aiming to provide affordable, high quality grabbers to every volunteer, fighting litter on the front line.

WASTE BAGGER

A durable and weatherproof waste carrier for 180 L bags that is a great multi-tasking alternative to plastic bags and the perfect companion to UNGER's super tough litter pickers.

Robust

- Can be pulled across the floor, asphalt or ground due to solid plastic bottom and carry loops.
- Protects plastic bags from splitting.

Practical

- Collapses flat and fastens with Velcro for compact storage and transportation.
- Can be used indoors or outdoors as a temporary waste disposal or recycling unit during the event.

Ergonomic

- Allows to avoid unnecessary bending or lifting heavy bags.
- Always open for easy and safe access without touching litter.
- Made of robust material for reduced injury risk from sharp waste.

Part No.	Size	Ø	Height	Colour	Pack
NB300	180 L	55 cm	68 cm	●	1

PAPER PICKER

A lightweight tool with a strong metal pin for removing debris such as paper and cans.

Ergonomic Design

- No bending or back strain.
- Handle design positions arm and hand in the optimal position for reaching debris.

Carbon Steel Shaft

- Lightweight and rust resistant.

Strong Metal Pin

- Long enough for picking up several pieces of debris at once.
- Will punch through and hold even thick, aluminium cans.

Part No.	Size	Pack
PPPP0	100 cm (39")	10
PINP0	Replacement Pin Plugs for Picker	10

Trigger Grip™ LITTER PICKER

Durable litter picker with a strong internal metal bar, a 360° fully rotating head and a highly responsive trigger grip handle. Available in 4 lengths.

Robust metal bar inside

- For extra durability and grab power.
- Will not stretch or snap, like string mechanism on other grabbers.

Trigger Grip Handle

- Responsive mechanism for greater comfort.
- Made with glass-reinforced plastic for increased durability.

Rubber Claws

- Reliable grip even with most difficult shapes.
- Opens up to 13 cm wide and holds items up to 4.5 kg.

Rotating Head

- Access narrow areas with 360° rotating head.
- Locks securely every 90°.

Aluminum Shaft

- Durable and rust-resistant.
- Lightweight, designed to decrease fatigue.

Part No.	Size	Pack
NT060	63 cm (24")	5
NT080	83 cm (32")	5
NT090	93 cm (36")	5
NT100	102 cm (39")	5

PRO LITTER PICKER

A heavy duty litter picker with a strong internal metal bar, powerful claws and robust steel shaft. Available in 4 lengths, including 2.50 m long reach version!

Steel Claws

- Molded rubber overlay for an extra-secure grip.
- Powerful hold of small or oddly shaped objects - broken glass, cigarettes or coins.
- Opens up to 15 cm wide.

Rugged Design

- Shaft made from durable steel with rust resistant coating for dependable use over long time.
- Strong enough for heavy-duty work, light enough to protect from back and arm strain.
- Overall steel construction wears well under the rigours of every day use.

Part No.	Size	Pack
NN400	52 cm (21")	5
NN900	97 cm (38")	10
NN140	130 cm (51")	5
NN960	250 cm (8 ft)	6

GENERAL CLEANING

Professional Tools for daily and project cleaning tasks.

Efficient, Ergonomic, Hygienic

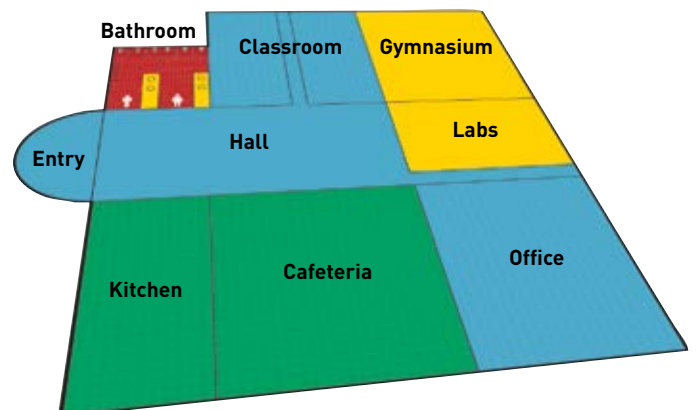

UNGER Maintenance Cleaning tools provide simple solutions for many cleaning tasks. They help professionals to perform their job better, faster and easier.

Their ergonomic design and state of the art functionality ensure full compliance with modern cleaning requirements.

 **COLOUR CODING** Products are coded or can be coded for usage in specific area.

RECOMMENDED USAGE

-  Bathroom Cleaning
-  Clinical
-  Food and Bar Area
-  General Low Risk Area
-  Bespoke or Site Specific

The World of Maintenance

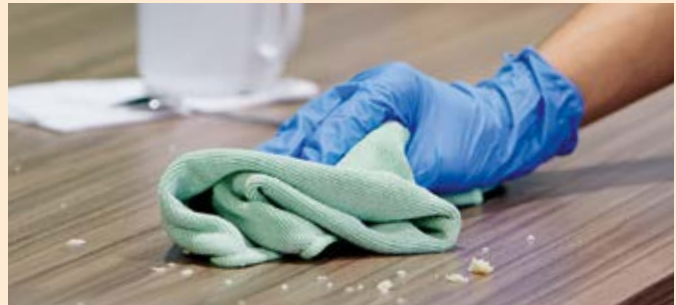

FLOOR CLEANING

p. 70

UNGER Floor Care & Maintenance Tools provide simple solutions for many cleaning tasks. This range includes Floor Mopping Systems (wet & damp mops), Floor Squeegees, Floor Scrapers and a Waxing System.

WaterWand
SmartColor
AquaDozer®

MICROFIBRE CLOTH SYSTEM

p. 78

Five-colour system for optical coding optimises cleaning by dividing tools and areas. Matching coded tools assigned to specific cleaning areas prevent dangerous bacterial contamination. Our easy to follow Grading System helps you choose the right microfiber for specific tasks, optimising the ROI.

SmartColor
MicroWipe

BATHROOM CLEANING

p. 80

The **UNGER** Bathroom and Toilet Cleaning System is colour coded in red to prevent bacterial cross contamination.

ErgoTec®
NiftyNabber®

DUSTING & BRUSHES

p. 82

Innovative dusting tools for effective cleaning with minimum effort. Compatible with **UNGER** telescopic poles for safe cleaning at heights of up to 10 m (33 ft).

StarDuster®

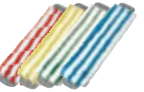

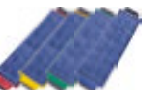

FLOOR CLEANING

FLOOR CLEANING

Designed for efficient, comfortable and truly hygienic cleaning, the **UNGER** mopping system offers a perfect solution for many cleaning challenges.

Our new product guide below will help you to identify the best set of tools for keeping the floor perfectly clean.

*To clean wooden floors or sealed surfaces, use damp or dry mop.

FLOOR MOPPING – WET & DAMP MOPPING (BRUSHES)

A comprehensive flat mop system makes a significant difference in your facility's cleanliness and your floors' appearance. Studies demonstrate that flat mop systems, especially when used with microfibre mop heads, optimize efficiency, enhance floor safety and provide savings in labour and material. The **UNGER** flat mop system is 70 % lighter than traditional mops, which increases productivity and enhances maneuverability.

MICROFIBRE MOPS & MOP HOLDER

Quality Tools for Smart Cleaning

SmartColor SPILL MOP 1 L

- Microfibre mop for absorption of large amounts of liquid.**
- 14 mm long microfibres, extra-large surface
 - Absorbs up to 1 L liquid immediately
 - Machine washable up to 500 times
 - Fits on UNGER flat mop holder SM40G

Part No.	Size	Colour	Material	Pack
MA45R	47 x 21 cm	●	Microfibre**	5
MA45Y	47 x 21 cm	●	Microfibre**	5
MA450	47 x 21 cm	●	Microfibre**	5
MA45B	47 x 21 cm	●	Microfibre**	5

SmartColor MICRO MOP 15.0

- Durable microfibre mop, ideal for tiles and stone floors with grout lines.**
- Heavy duty 15 mm long fibres with large surface area
 - Cut microfibre for improved dirt absorption and streak-free cleaning
 - Reduces bacterial contamination by up to 96 %
 - Holds 6 times its own weight in water - perfect for cleaning large areas
 - Machine washable up to 500 times
 - Fits on UNGER Flat MopHolder SM40G

Part No.	Size	Colour	Material	Pack
MM40R	40 cm	●	Microfibre*	5
MM40Y	40 cm	●	Microfibre*	5
MM400	40 cm	●	Microfibre*	5
MM40B	40 cm	●	Microfibre*	5

SmartColor MICRO MOP 7.0

- Microfibre mop, ideal for vinyl or sealed floors without grout lines.**
- 7 mm long fibres
 - Cut microfibre for improved dirt absorption and streak-free cleaning
 - Reduces bacterial contamination by up to 96 %
 - Machine washable up to 500 times
 - Fits on UNGER Flat MopHolder SM40G

Part No.	Size	Colour	Material	Pack

CLEANING CART

A HIGHER LEVEL OF CLEANING AND PRODUCTIVITY

Meet the **SmartColor Cleaning Cart**, the first cleaning cart developed by professional cleaning operatives to help them work faster, safer and better than ever before.

Perfect for using together with **UNGER SmartColor Mopping System**, Dual Bucket and other Accessories.

Storage Module doubles the supply space on the cart, so you can re-stock multiple bathrooms without lost time returning to the supply area.

Nothing sticks out beyond base of cart. You can move the cart through doorways, on/off elevators, without any tools catching on doorways, etc.

The base of the cart is designed to catch drips from cleaning tools. This allows you to work quickly without the worry of staining clean floors.

Wheel wells improve bucket stability and hold bucket in place. Helps eliminate messy spills when the cart hits thresholds, bumps into a frame.

SmartColor CLEANING CART

Complete transportation cart including vinyl trash bag, tool clips and holders

- Drip tray: the base of the cart acts as a drip tray catching excess liquid
- Ergo Handrail: No matter which side of the cart you're on, you can push and pull with ease
- Clip System: Tools are always where they need to be, and always clipped on securely

Part No.	Content	Pack
RRCRT	Cart complete	1
RRMOD	Storage module	1

DOUBLE BUCKET

Quality Tools for Smart Cleaning

SmartColor COMBO 30 L

Complete dual bucket with press.

- Two compartments keep clean and dirty water separated
- Emptying via drain spout and dump spout
- Labels included for colour coding
- Complete with vertical press
- Available accessories: Adapter hose WH180, side bucket SMSBG

Part No.	Content	Colour	Pack
COMBG	30 L	●	1
COMBR	30 L	●	1

SmartColor COMBO 15 L

Compact complete dual bucket with press.

- Two compartments keep clean and dirty water separated
- Labels included for colour coding
- Complete with vertical press
- Available accessories: Adapter hose WH180, side bucket SMSBG

Part No.	Content	Colour	Pack
COMSG	15 L	●	1
COMSR	15 L	●	1

SmartColor FLOOR CLEANING SET

The convenient floor care sets.

- Perfect for professional floor care
- Complete with UNGER SmartColor MopHolder SM40G and Telescopic Handle
- SF14G Set also includes large 30 L dual bucket
- Select a floor mop from our wide range of colour coded products

Part No.	MS18G	SM40G	COMBG	Pack
SC14G	●	●		1
SF14G	●	●	●	1

SmartColor SIDE BUCKET

Additional storage on dual bucket.

- Labels included for colour coding
- Snaps to side of UNGER SmartColor Combo 30 L COMBG or COMBR

Part No.	Colour	Pack
SMSBG	●	1

EASY ADAPTER WATERHOSE

Heavy duty adapter hose for dual bucket.

- Fits on every standard water tap
- Allows for convenient filling of bucket on-site

Part No.	Size	Pack
WH180	180 cm	10

SmartColor SWIVEL BRUSH & SmartColor SWIVEL CORNER BRUSH

Perfect for corners, edges of floors, walls and partitions.

- Durable polypropylene bristles remove even severe dirt
- Swivel head is easy to maneuver and reduces bending and over-reaching
- Angled bristles provide optimal cleaning of corners and edges
- Labels included for colour coding
- ACME threaded handle socket

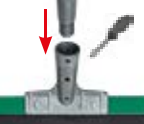

Part No.	Size	Pack
SB20G	20 x 8 cm	10
CB20G	22 cm	10

FLOOR SQUEEGEES

FLOOR SQUEEGEES

Ideal for commercial cleaning, **UNGER** floor squeegees effectively remove excess water, oil and other liquids from large hard floor areas. Use our product guide below to

identify the right squeegee for specific premises or job requirements.

Squeegee	Dual Blade	Unsealed Concrete	Sealed Concrete	Steel	Industrial Carpet	Tarmac	Marble	Vinyl	Rubble Stone/Stoneware	Rubber Flooring	Tartan Track	Wood (Inside/Outside)	Areas of Application	Rubber	Solvent Resistance*	Oil Resistance**	Acid Resistance	Inserts & Threads

i DOUBLE BLADE

The double blade ensures effective removal of liquid on all types of flat surfaces, even with grooves, tile joints or textured finish.

BLACK RUBBER

- All-purpose foam rubber
- Perfect for cleaning in most areas

RED RUBBER

- Excellent resistance to oils, acids, greases and solvents
- Ideal for cleaning in factories, garages and vehicle maintenance facilities

SANITARY SQUEEGEE

Squeegee with double blade foam rubber blade, black. ACME thread.

- Plastic body for increased hygiene
- Acid, rust and scratch proof
- With splashguard

Part No.	Size	Pack
PM45A	45 cm	10
PM55A	55 cm	10

WaterWand HEAVY DUTY RED

Reinforced version for heavy duty jobs with double blade red foam rubber, oil and acid resistant.

- Great for cleaning joints
- Sturdy metal body
- For streak free floor drying

Part No.	Size	Pack
HW550	55 cm	10
HW750	75 cm	10

SANITARY COMBI BRUSH

2 tools in one: Brush with polypropylene bristles and squeegee with double blade foam rubber blade, black. ACME thread.

- Scrubber to remove dirt
- Foam rubber blade for drying floors and joints
- Very sturdy, but lightweight

Part No.	Size	Pack
PB45A	45 cm	10
PB55A	55 cm	10

WaterWand ACME THREAD INSERT

For all WaterWand squeegees.

Part No.	Pack
FWA10	10

WaterWand STANDARD

For lighter jobs with double blade black foam rubber.

- Great for cleaning joints
- Sturdy metal body
- For streak free floor drying

Part No.	Size	Pack
MW450	45 cm	10

AquaDozer®

For heavy duty jobs, black EPDM rubber. Ideal for industrial environment.

- Sturdy construction

HANG UP

All-purpose tool holder. Tools are inserted from front.
 Available in 2 versions (3 or 6 holders).
 - Tools snap into rubber rolls in front
 - Practical and ideal for quick access
 - Simply attach to wall, using dowels

Part No.	Size	Info	Pack
HO350	35 cm	3 holders	5
HO700	70 cm	6 holders	5

HOLD UP

Tools are inserted from the bottom and held in place by strong rubber grips.
 - Simply attach to wall, using dowels
 - Equipped with hooks on the front to hang up smaller tools

Part No.	Size	Pack
HU450	45 cm	5
HU900	90 cm	5

ERGO DUST PAN

For quick and thorough waste removal.
 - Ergonomic and convenient
 - Dust pan opens when raised, and retains the waste
 - Telescopic handle (EDTBG), can be adjusted to suit individual height

Part No.	Size	Type	Pack
EDTBG	83 x 30 cm	Telescopic	6
EDPBR	83 x 30 cm	Standard	6

WonderWaxer

Complete wax applicator with 1.40 m handle.
 - For applying wax to wooden floors
 - Convenient operation while standing
 - Swivel head, replaceable sleeve with snap fasteners

Part No.	Size	Material	Pack
QS140	40 cm	Blended fabric*	10

WonderWaxer REPLACEMENT SLEEVE

Part No.	Size	Material	Pack
QS010	40 cm	Blended fabric*	10

* Support material: 100 % polypropylene; Fibres: 68 % polyacrylic, 32 % polyethylene

MICROFIBRE CLOTHS

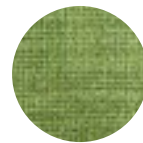

MICROFIBRE CLOTH SYSTEM

AVOID BACTERIAL CONTAMINATION!

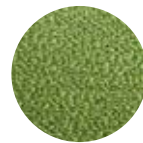

- Five-colour system for optical coding optimises cleaning by dividing tools and areas
- Matching coded tools assigned to specific cleaning areas prevent dangerous bacterial contamination
- Colour-coding facilitates the application of specific chemicals, thus protecting valuables like furniture and floor coverings

CLOTH SURFACE GUIDE

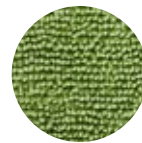

- Guidelines for choosing the right microfiber for the right task
- Optimization of your return on investment (ROI) by purchasing the best grade for your needs

**MICROWIPE
200**

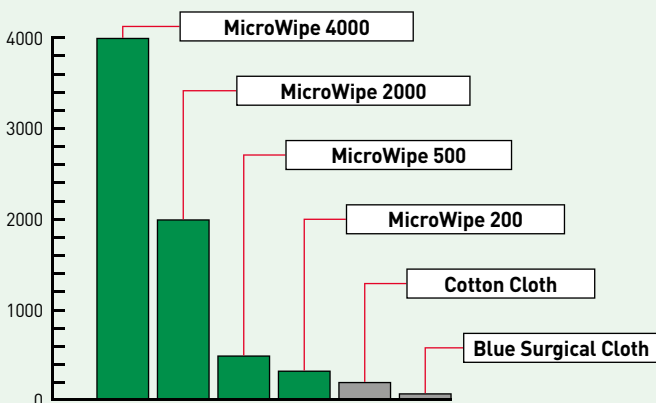

GRADING SYSTEM EXPLAINED

The range of cleaning products that microfiber may be used for is dictated by many qualities, including fibre thickness, length, finishing, abrasiveness, absorbency, cloth dimension, edging and quality manufacturing techniques. **UNGER** has established several

performance factors that have been tested, measured and validated by ASTM independent laboratories and other US standard industry tests. This criteria is designed to assist end users in the selection process when purchasing microfiber cloths.

DURABILITY

TEST DESCRIPTIONS

- **Durability (Wear Cycles)**** The higher the factor, the greater number of times the microfiber cloth can be moved across an abrasive surface before wearing through and degrading or developing holes
- **Scrub Factor (Abrabiveness)**** The higher the scrub factor, the better the performance of the cloth in removing dirt and bacteria from surfaces and microscopic crevices
- **Absorbency*** The higher the factor, the more liquid the cloth will absorb and hold
- **Wash Cycles** A higher number of wash cycles indicates the longevity of the cloth through machine wash and dry cycles before deteriorating

** ASTM Tests *Standard US Industry Tests

SmartColor MicroWipe

High quality microfibre cloth. Resistant against frequent commercial wash cycles. Use the table below to choose the right grade to maximise the return on your investment.
