TIME SAVING**

"Time will be cut down by minutes always.

You don't need to go back for another pass with a squeegee nor spend time wiping glass on all your countless mistakes.

10 minute job: 1-2 minutes shaved off overall time. 20 minute job: 3-5 minutes.

I do one 45 minute job and it will save me 10 minutes or more!"

"This tool on any normal job eliminates minutes from standard squeegees.

Why is that ? Because with Liquidator mistakes rarely happen.

Standard squeegees have many issues with the rubber bending on all kinds of windows and seals."

"It does clean all the water and soap from the edges very well!"

From thick rubber seals, old window steel edges and residential windows of all kinds from wood to plastic frames."

"This will revolutionize window cleaning."

"I had zero issues with any water left behind."

"Nothing can touch this. It blows away anything that's out there."

"Really good quality, better than anything I've used before."

"I've been using the 22 inch squeegee all day and it's beyond fantastic to use."

"It's unbelievable, never had anything work so well that is so large."
