ERGOTEC[®] NINJA

The Most Advanced Professional Window Cleaning System

Quality Tools for Smart Cleaning

Over 50 Years of Professional Quality

In 1964, a young window cleaner decided that he would take a chance. It was in that year that Henry Unger took the latest window cleaning innovations from the United States and introduced them to German window cleaners. With the unwavering support of his wife, he launched his new business from her grandmother's attic in Hamburg. From this dream, a business that now spans the globe was born.

Henry's discerning eye for quality products and tireless pursuit of new and better ways to clean still serve as inspiration for **UNGER**, and continue through his three sons, who reaffirm their father's core values of quality, trust and customer service in **UNGER** today.

The fact that Henry Unger started as a window cleaner gave him the deep understanding and knowledge that would drive the business from its humble Hamburg beginning to the global company that **UNGER** is today.

Today, we continue to build on Henry's belief that knowing your customers is the only way to serve them. A key to our success has always been working in partnership with cleaning professionals to develop the very best cleaning solutions that deliver the right results, every time. Our customers' priorities are **UNGER's** priorities – we share the same goals in wanting to make cleaning better, easier and more efficient. Together with our customers, we are shaping the next generation of cleaning solutions.

100% Customer Satisfaction Guarantee

At Unger, we aim to stand apart from the rest thanks to our special „Yes We Can!“ service spirit.

We love what we do and as proof of that, we promise to deliver a **100% Customer Satisfaction Guarantee** on every product and service we offer.

This ensures that every Unger product you purchase meets your high standards - or you can return it for a replacement or refund.

ErgoTec® NINJA – The Premium System

ErgoTec® NINJA is our premium range of sophisticated tools, developed by experienced **UNGER** engineers to meet the highest requirements of professional window cleaners for quality and performance.

Every product within **ErgoTec® NINJA** family is packed with features to help you achieve outstanding results with minimum effort; high quality materials for each component have been carefully selected to ensure the best performance.

The range comprises of the innovative **ErgoTec® NINJA Squeegee**, now available in a choice of 30° or 40° head angle versions; **ErgoTec® NINJA Washer** with highly absorbent sleeve, **ErgoTec® NINJA Microfibre Cloth** with scrubbing corners and practical **Bucket-On-A-Belt**.

The latest addition, the unique 2-in-1 **ErgoTec® NINJA Scraper** with variable working angle mechanism is complemented by a durable Holster for fitting to the belt.

ERGO TEC® NINJA

Quality Tools for Smart Cleaning

UNGER ErgoTec® NINJA Squeegee

The award-winning **ErgoTec® NINJA Squeegee** has been updated with a host of great features, offering numerous benefits to the professional window cleaner

NEW

New! Innovative locking mechanism to secure the swivel head in centre position
Button in = locked
Button out = unlocked

NEW

New and improved:
SmartClips

NEW

30°

40°

Now available in 2 head angles:
30° or 40°
Available in sizes:
20 – 105cm

THE HANDLE:

Lightweight ergonomic handle designed to perfectly fit the human hand.

Non slip rubber handle texture ensures excellent grip and comfortable continuous hold.

Textured thumb area for greater control.

Now available in 30° or 40° head angle version to suit your personal preference or specific cleaning job.

180° swivel control with adjustable tension - perfect for pole work.

NEW: Innovative locking mechanism to secure the swivel head in centre position.

Firmly locks on **ErgoTec® Locking Cone** via release button for secure fit to poles.

THE CHANNEL:

TriLoc mechanism

TriLoc Channel Locking mechanism prevents the channel from accidental falling out - ideal for working at height.

Channel change

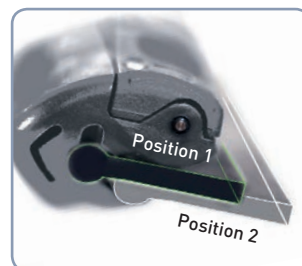

Part of the award-winning **ErgoTec® NINJA** range, this lightweight and durable channel is made from extruded T6 Aircraft Aluminium that will not bend or break.

13 Choices of channel length:

Channels up to 105cm long dramatically reduce the time required for cleaning large surfaces, allowing you to achieve more in less time.

Every channel features **NINJA** 'Star' markings for easy centre positioning of handle.

Complete with **UNGER** professional soft rubber, the **ErgoTec® NINJA Channel** delivers perfect pressure distribution for streak free finish with minimum effort.

A choice of 2 flexible rubber positions for optimal pressure and contact with glass.

THE SMART CLIP:

SmartClip: New and improved replacement end clips for **ErgoTec® NINJA Channel**, now with an audible „Click in Place“ feature and signal coloured area indicating when the clip is open.

Allow to secure the desired rubber tension.

Slide outwards to **Open Position** to change or adjust the rubber.

Slide back to **Close Position** to secure to desired tension.

Easy to operate even in gloves.

Easily changeable for fast adjustment of the rubber.

TriLoc channel locking mechanism

UNGER ErgoTec® NINJA Washer

The advanced **ErgoTec® NINJA Washer** is a neat solution across the board. The durable **ErgoTec® NINJA Washer T-Bar** is made of strong yet lightweight hard anodised aluminium and features 180° swivel control with easy locking mechanism, perfect for pole work. The **ErgoTec® NINJA**

Washer Sleeve guarantees exceptional cleaning results with minimum effort. With five lengths of **ErgoTec® NINJA T-Bar** and **Sleeve** to choose from, you have the flexibility to clean small or large areas equally efficiently.

New! Innovative locking mechanism to secure the swivel head in centre position
Button in = locked
Button out = unlocked

Ultimate performance
washer sleeve

Available in sizes:
25 – 75cm

THE HANDLE:

Lightweight ergonomic handle designed to perfectly fit the human hand.

Non slip rubber handle texture ensures excellent grip and comfortable continuous hold.

Firmly locks on **ErgoTec® Locking Cone** via release button for secure fit to poles.

Coin adjustable stainless steel screw to increase or decrease the swivel tension.

180° swivel control with adjustable tension - perfect for pole work.

NEW: Innovative locking mechanism to secure the swivel head in centre position.

The durable **ErgoTec® NINJA Washer T-Bar** is made of strong yet lightweight hard anodised aluminium. Its purposeful design delivers superior performance without causing excessive strain on arms and shoulders.

THE SLEEVE:

The **ErgoTec® NINJA Washer Sleeve** guarantees exceptional cleaning results due to its highly absorbent material and built-in rows of scrubbing fibres that run along its length - great for loosening dirt and grime without damaging windows.

Machine washable up to 500 times.

Two abrasive pads, one on each end of the Sleeve, provide extra scrubbing power for removing even the most stubborn dirt.

The **velcro fastener** ensures secure fit onto the T-Bar.

Quality Tools for Smart Cleaning

UNGER ErgoTec® NINJA Scraper & Holster

NEW

The new **UNGER ErgoTec® NINJA Scraper** features a unique pivoting mechanism which allows the angle of the scraper head to be switched from straight to 30 degrees at the touch of a button.

This provides super quick adjustment and flexibility for optimum comfort and scraping performance in light and heavy duty tasks, during close manual work or pole work at a distance. It also eliminates the need to purchase two different scrapers!

UNGER Premium Glass Scraper Blades Stainless Steel

- Durable dual-sided replacement scraper blades are made from rust resistant 440A grade stainless steel which provides excellent edge retention and break resistance, ensuring that blades stay sharp for a long time.
- Each blade undergoes a precise angle honing process, creating a razor sharp and consistent cutting angle, enhancing the speed and effectiveness of every scraper pass.
- Perfect for removing paint, decals, tape, heavy soil and debris from glass surfaces, as well as construction clean up.
- Compatible with most flat or angled 10cm / 4" or 15cm / 6" scrapers.

Made of durable solid plastic, the Holster is built to withstand frequent contact with sharp blades thanks to its integrated stainless steel strike plate.

Fits to most standard tool belts.

Fits the scraper with or without protective cap.

Available in 2 sizes:

10cm / 4"

15cm / 6"

THE SCRAPER:

The angle of the scraper head can be switched **from straight to 30°** at the touch of a button.

Solid pivoting angle change mechanism, made of rust resistant stainless steel.

Safer and easier blade change – push slider release lock to access and change blade.

Ergonomic non-slip handle offers more grip, less slip, reducing hand, arm and shoulder fatigue.

Includes removable **protective blade cover**.

Compatible with **ErgoTec® Locking Cone** for secure fit to poles.

ErgoTec® NINJA Holster provides quick, easy and accessible scraper storage – simply slide the scraper into the Holster and lock the handle into the robust clamp to prevent the scraper from falling out. Compatible with most flat or angled 10cm / 4" or 15cm / 6" scrapers.

UNGER ErgoTec® NINJA MicroWipe™

This professional quality cloth is made from ultrafine, high quality microfibre with unique features that are synonymous with our premium **NINJA** range of products.

Lint free, highly absorbent material enables you to clean or dry window frames and glass quickly, removing all traces of water for a streak free, high shine finish.

Double sided, with a coarse surface on one side for cleaning and a smooth surface on the other side for polishing and finishing touches, the **ErgoTec® NINJA MicroWipe™** features four unique scrubbing corners for spot cleaning – handy “pockets” of material with rows of abrasive looped fibres on the outside for removal of the stubborn stains and soft, kind-to-skin fabric on the inside.

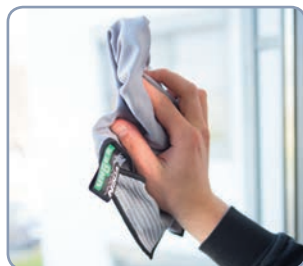

Available in 3 sizes:

40 × 40cm

55 × 55cm

80 × 60cm

THE MICROFIBRE CLOTH:

Fabric: 400 g/m² material thickness for high absorbency and durability. This cloth will not stretch or lose shape over time due to its high density weave of fabric and 5mm wide overlocked edging.

Machine washable up to 500 times.

Spot cleaning: Simply slide a corner ‘pocket’ over your fingers and gently rub the stained area.

Corner pockets: Hang it over the tip of the pole for safe detailing at height.

Quality Tools for Smart Cleaning

UNGER ErgoTec® NINJA Bucket-On-A-Belt

Practical **Bucket-On-A-Belt** provides quick and safe access to most important tools. Suitable for all **UNGER** Squeegees, the Bucket holds 2 Squeegees, 1 Washer and 1 Safety

Scraper, as well as 0.75L of cleaning liquid. The Bucket can be easily attached to any belt with the quick release lock - ideal for working at height and in narrow spaces!

THE BUCKET-ON-A-BELT:

Designed to suit both left and right handed window cleaners.

Clip lock for quick fastening. Fits to any standard tool belt.
