

Quality Tools for Smart Cleaning

S-plus

S-CHANNEL PLUS

Made in Germany by UNGER, our precision engineered 'Dog Eared' squeegee channel is now available to everyone.

For some time Squeegee users all around the world have been 'Dog Earring' their channels to improve performance and reduce detailing. We researched and embraced this concept in 2012, incorporating the improved channel design with special curved

ends into our UNGER Ultimate Squeegee Limited Edition, launched in May 2014. With so much great feedback received from professional users of our Ultimate we have decided to make this feature available to everyone by launching the new S-Channel Plus.

Glen Bailey, the Fastest Window Cleaner at the Cleaning Show 2015 Window Cleaning Competition chooses UNGER S-Channel Plus ends to beat the competition!

GREATER RESULTS - WITH LESS EFFORT!

- Curved ends support the rubber at the edges for improved cleaning close to frame.
- Made in Germany from strong and durable stainless steel.
- Variable positioning for greater and easier reach.
- Notched edges for secure hold of channel and rubber.
- Complete with UNGER Professional Soft Rubber.
- Easy change and fit for most industry standard squeegee rubbers.
- Fits most industry squeegee handles, including UNGER ErgoTec®, S- and Pro Squeegees.
